Address: Grigor Gjirokastriti, 1001, Tirane, Albania (Home)

ABOUT ME

Experienced software engineer passionate about pushing technology boundaries. Specializing in backend and frontend development with expertise in robust and scalable solutions. Skilled in cloud platforms and database design. Proven track record of delivering high-quality results and recognized for contributions to successful projects. Dedicated, professional, and collaborative, with strong problem-solving skills. Actively engaged in the developer community, sharing insights and best practices. Seeking opportunities to drive innovation and make a positive impact through software engineering.

WORK EXPERIENCE

01/07/2019 – CURRENT Tirane, Albania
SOFTWARE DEVELOPER RITECH SOLUTIONS

Projects
- **Frontend Engineer - Subsplash (*Current*)**
    - All-in-One Church management system
    - Involved in multiple projects including media managing tools, messaging, donation, live + chat, bible, search, and an end-user web and mobile application.
    - Web applications are built on Ember JS, while the mobile app is developed using React Native TypeScript.
    - Responsible for writing unit, integration, and acceptance tests for both web and mobile applications.
    - Familiar with Agile and Scrum methodologies, following a trunk-based development methodology.
- **ETL Developer - Data Analysts for LoveWellness, E-Commerce (*6 months*)**
    - Integrated multiple advertising platforms (Facebook Ads, Snapchat, Shopify, Amazon Seller Central) with a Salesforce AI-Marketing platform called Datorama.
    - Responsible for analyzing and visualizing data in Datorama.
    - Built the infrastructure in AWS using various services such as CloudWatch, SNS, SQS, and Lambda.
- **ETL Developer - Data Analysts at Flipboard (*6 months*)**
    - Developed ETL pipelines for aggregating Advertising Data from multiple platforms.
    - Utilized Python 2 and 3 as the programming languages.
    - Worked with Cloud Services like Amazon Web Services (AWS) and Google Cloud.
    - Used Jenkins as a job scheduler for managing the ETL scripts.

16/10/2017 – 21/06/2019 Tirane, Albania
SOFTWARE DEVELOPER PROTECH SHPK

- Developed and maintained a comprehensive web dashboard for efficient client management, enabling streamlined communication and enhanced user experience.
- Collaborated in the design and implementation of VoIP and Bulk SMS web platforms, providing scalable and reliable solutions for clients.
- Designed and developed an intuitive Help Desk web application for internal usage, facilitating seamless ticket management and issue resolution.
- Implemented an automated system for testing VoIP Routes, optimizing efficiency and ensuring high-quality service delivery.
- Created an automated invoice system, reducing manual effort and enhancing accuracy in financial processes.

- Designed and maintained relational databases (MySQL and MariaDB), ensuring efficient data storage, retrieval, and management.
- Acted as a Full-Stack developer, utilizing native PHP and Java to develop robust and scalable applications.
- Demonstrated expertise in frontend technologies such as HTML, CSS, Bootstrap, JavaScript, and jQuery, crafting engaging and responsive user interfaces.

Business or Sector Information and communication ⎪ **Department** VoIP and Bulk SMS ⎪

EDUCATION AND TRAINING

16/11/2017 – CURRENT Tirana, Albania
MASTER OF SCIENCE – COMPUTER SCIENCE University of New York Tirana

C++ and Java programming languages, Software Engineering and Design Patterns in Java. Unified Modeling Language (UML), Advanced Networking and Research Methods, Database Systems (OracleDB) and Engineering of Web Applications (Ruby and Ruby on Rails)

22/09/2013 – 13/10/2016 Tirana, Albania
BACHELOR IN INFORMATICS University of Tirana, Faculty of Natural Sciences

Programming languages C, C++, Java, Javascript, PHP, HTML, CSS. Networking, OS, Formal Language, etc.

LANGUAGE SKILLS

Mother tongue(s):   **ALBANIAN**

Other language(s):

	UNDERSTANDING		SPEAKING		WRITING
	Listening	Reading	Spoken production	Spoken interaction	
ENGLISH	C1	B2	B2	B2	B2
ITALIAN	A2	A2	A1	A1	A1

Levels: A1 and A2: Basic user; B1 and B2: Independent user; C1 and C2: Proficient user

DIGITAL SKILLS

Programming languages

Javascript ⎪ Typescript ⎪ PHP ⎪ Java ⎪ Ruby ⎪ Python

Databases

PostgreSQL ⎪ MySQL ⎪ Redis ⎪ Amazon Redshift, ⎪ MongoDB ⎪ Google BigQuery ⎪ MariaDB ⎪ Google Firebase ⎪ Amazon RDS

UI Frameworks

Bootstrap ⎪ Ant Design ⎪ Material UI ⎪ jQueryUI ⎪ Chakra UI ⎪ TailwindCSS

Frameworks/Libraries

Ember.js ⎪ React.js ⎪ React Native ⎪ Redux ⎪ Lit ⎪ Angular ⎪ Next.js ⎪ Node.js ⎪ Pandas ⎪ Ajax ⎪ Laravel ⎪ Flask ⎪ CodeIgniter ⎪ jQuery ⎪ Express

Others

Monorepo | AWS Amplify | AWS Cloudfront | AWS SQS | AWS API Gateway | AWS Route53 | AWS S3 | AWS Lambda | AWS CloudWatch | AWS EC2 | AWS RDS | Ansible | TypeORM | Docker | AWS IAM | Jenkins | AWS SNS | Lerna.js | Git | GraphQL | Sequelize.js | ApolloClient | Agile | Jira

ADDITIONAL INFORMATION

PROJECTS

01/09/2022 – CURRENT
OnSite App - Eptura Mobile application to manage construction sites. Also manages maintenance for multiple sites, allowing employees to get work request and track the progress.

Original AL Web platform built by USAID in Albania to help local business to present their original products (made in Albania). I was the leader of a team of 4 members (3 developers and 1 UI/UX).
- A 4-month project
- Web application build in Laravel and JQuery, MySQL for databaze
- Bootstrap 3 for the UI part
- Self hosted application

Novalto A web FinTech platform that offers insights about the financial performance of companies, sectors, and industries in Albania.
- An 18-months project
- Fullstack developer
- Angular 8+ for frontend
- NodeJS and ExpressJS for backend
- TypeORM
- PostgreSQL, MongoDB, and Redis

Neon Screens A web platform for managing digital content on your displays. Customers can control their display content by configuring the advertising on their dashboard.
- A 4-month project
- Lead Backend Developer
- NodeJS with ExpressJS
- TypeORM and a PostgreSQL database
- AWS for infrastructure
https://www.neonscreens.com/

https://www.neonscreens.com/

PurpoSolver A web platform that allows people to take a survey about their life and suggest what their interests and activities may be. Based on that information the customers can create communities, share their content, and follow other people.
1. A 7-month project
2. Lead Frontend Developer
3. ReactJs with Ant Design system
